PRO PERFORMANCE[®] ADVANCED MUSCLE PERFORMANCE
THE ULTIMATE LINE OF PEAK PERFORMANCE PRODUCTS

A revolutionary formula with ingredients clinically shown to boost endurance performance and help maximize energy during intense exercise.

Designed with a blend of fast- and slower-acting carbs to provide energy for the long haul.

Enriched with a 5-electrolyte hydration enhancer, protein and critical amino acids to better fuel your game.

In a simulated training involving 90 minutes of continuous cycling immediately followed by high intensity cycling at 85% VO2 Max to complete a fixed amount of work, consumption of two servings of the endurance formula present in this product during exercise resulted in improved cycling performance time (4.57 minutes on active vs. 2.57 minutes on placebo) during the high-intensity cycling bout. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
